### Highlights

### NOVEMBER 1968

<u>Producer Deliveries</u>. A total of 101,464 producers delivered 3.2 billion pounds of milk to regulated handlers in 60 comparable markets during November 1968. This is 2.3 percent above producer deliveries in November 1967. Average daily delivery per producer increased from 992 pounds in November 1967 to 1,062 pounds in November of this year. Producer numbers, producer deliveries, average butterfat percentages, and average daily deliveries per producer for individual markets are shown on table 3.

Producer Deliveries Used in Class I. The volume of producer deliveries used in Class I in 60 markets increased 4.4 percent from last year, to a total of 2.4 billion pounds for the month of November 1968.

Gross Class I sales, which comprise total Class I sales by regulated handlers, in-and-out of defined marketing areas, increased 4.7 percent in the 60 markets for the month of November.

Percentage of Producer Deliveries Used in Class I. The average utilization percentage for November 1968 was 74 percent, up from 72 percent for November 1967. Thirty-five markets showed an increase in the utilization percentage, four showed no change, and the remaining 21 markets showed a decrease (See table 4).

Minimum Prices. The weighted average Class I price paid by handlers in the 60 markets for 3.5 percent milk was \$6.44 per hundredweight, 47 cents higher than the \$5.97 per hundredweight price in November 1967 Minimum Class I prices for November this year were higher in all 60 markets.

Producers in the 60 markets received a weighted average blend price of \$5.98 per hundredweight for 3.5 percent milk, 43 cents higher than the \$5.55 price received by producers in November 1967. Producers received a higher blend price in 59 markets and a lower price in the remaining market. Class prices, blend prices, and associated butterfat differentials, by markets are reported on table 1.

Fluid Milk Sales. Total in-area fluid milk sales for November 1968 in 62 marketing areas are estimated to be about 2.5 billion pounds, 3.1 percent above such sales in November of last year. Complete October in-area sales for total fluid items, and for the four major fluid product groupings (whole milk, skim milk items, mixtures, and cream), are reported on table 6.

Filled and Imitation Milk Sales. Survey data of filled and imitation milk sales in Federal order markets, September, October, and November 1968 are presented in table 11.

### YEAR TO DATE

Minimum Prices. The weighted average Class I price for the January-November period for the 60 markets was \$6.23, 31 cents above the \$5.92 for the same period in 1967. The 1968 weighted average blend price was \$5.53, 29 cents higher than the blend price of \$5.24 reported for the same period in 1967 (See table 2).

<u>Producer Deliveries and Deliveries Used in Class I.</u> Producer deliveries and deliveries used in Class I are reported for individual markets on table 5. In the first eleven months of this year, compared to the same period in 1967, producer deliveries for the 60 markets were unchanged, and deliveries used in Class I were up 1.8 percent. 1 Data for the 60 markets and for all markets are summarized below:

Producer Milk Deliveries and Deliveries Used in Class I, January-November

<sup>1/</sup> Plain, flavored, and fluid equivalent of concentrated.
2/ Plain, fortified, and flavored skim and part skim milk, buttermilk, and cultured specialties.
3/ Data for February 1968 adjusted to a 28-day basis before computing percentage changes.
4/ Sales for marketing area as defined after the 1967 amendment.
5/ Merger of Wheeling, Northeastern Ohio, and Youngstown-Warren, July 1, 1968. Sales represent only the Northeastern Ohio market.

<sup>6/</sup> Sales epresent the area after the merger and expansion of Nebraska-Western Iowa and Sioux City, May 1, 1968; Madison, Milwaukee, Northeastern Wisconsin, Northwestern Indiana, Rock River Valley, and the area formerly regulated under the Chicago order, July 1, 1968;

St. Louis and Ozarks, October 1, 1968.

7/ Sales for marketing area as defined prior to 1968 amendment.

8/ Small amount of sales estimated.

## MAJOR ORDER ACTIONS, NOVEMBER 1968

### Amendments:

New York-New Jersey - November 1 (33 FR 14229, 9/20/68). Amendment changes the basic membership requirement to receive cooperative payments from 4,000 producers (2 cents per hundredweight) and 6,000 producers (3 cents per hundredweight) to 15 percent of the producers supplying the market (3 cents per hundredweight) and requires a "federated cooperative" to pay to the federation one cent per hundredweight of milk produced by its members. Amendment retains the present rates of payments being received by bargaining cooperatives (3 cents) and operating cooperatives (4 cents). Action broadens the scope of the services to be covered by the payments. This is done by adding a definition of marketwide services to include "services which benefit all producers in the marketing of their milk under the order." Recipients of the payments must make a public report of their use of cooperative payment funds. Action adds to the present requirement for receiving the "4th cent" (operate plants and bulk tank units at which at least 25 percent of member milk is received) the requirement that the cooperative control processing facilities capable of handling 10 percent of milk marketed by its members but not less than one million pounds of milk daily.

Great Basin - November 1 (33 FR 15987, 10/31/68). This amendment deletes the supply-demand adjustor to the Class I price from the Great Basin order. Classification provision revised to provide that flavored sweetened cream disposed of to bakeries be classified as Class III.

### Suspension:

Inland Empire - November 13 (33 FR 16493, 11/13/68). This suspension will permit a handler to divert producer milk from a pool plant to a nonpool plant during the months of October and November 1968 without limit, if the milk of such producers has been received at a pool plant prior to diversion, but not necessarily in the current month.
